I could not enter into the discussion forum (only one time with Ms. Heidi Scurrell and pasted first 5 chapters and the chapter was sent by email according to her advice) so it did not help me. I noticed there is a login in problem here. However I appreciate to provide an opportunity to the participants for such an open discussion. Unfortunately I missed it.	This problem was discussed with the participant and it appears to have emanated from their office internet connection. Multiple resets and re-connections were required to make it work as well as it did.
There is something missing, which I cannot identify only partially. I learned that this is such course that makes me in getting familiar with the terminology not in depth.	This course requires a good understanding of English – as stated in the Participant Handbook – which is unfortunately only available in English.
