Comments	Response
Probably if the courses were less frequent there will be more students in each session and the student will be able to have more interaction especially with what is happening in the labs they are presiding over.	Understood. Restricting access to increase participation during any one session would be better for such a session, but this is contrary to the member stated desires for having training, when and where they are ready to take it.
The discussion forum was ok, just needed more people to interact with.	Agreed. Hope to modify approaches to create more interaction outside of a discussion forum.

Other Comments

Even though I was alone online most of the time I benefited a lot from Ned's corrections and contributions.
