

Laboratory Leadership Course

One Training Day

What?

Laboratories succeed when their people succeed. Good leaders can motivate dispirited teams of people to accomplish difficult things under impossible circumstances.

Learn what your team really needs from you in order to succeed. Learn how to deliver it and help create success in your lab.

Who?

This course is for the leaders within a laboratory – laboratory owners, and those who manage any aspect of laboratory operations. Or for those preparing for such responsibilities and want to learn successful leadership approaches.

How?

This one-day Training Course is offered by MOTIVA and examines approaches that allow leaders to create success in their own organizations. It contains easy-to-understand approaches based on personal experience. It focuses on the leadership of laboratories.
